

Rest of North Africa, Central Asia and Middle East

Author: Lucie Adenauer (Sustainable Development Solutions Network, FABLE Secretariat).

The countries in the “Rest of North Africa, Central Asia and Middle East” region are: Afghanistan, Algeria, Armenia, Azerbaijan, Egypt, Georgia, Iran, Iraq, Israel, Jordan, Kazakhstan, Kuwait, Kyrgyzstan, Lebanon, Morocco, Oman, Pakistan, Saudi Arabia, Tajikistan, Tunisia, Turkmenistan, United Arab Emirates, Uzbekistan, Yemen.

Pathway Assumptions		A) CURRENT TRENDS	B) NATIONAL COMMITMENTS	C) GLOBAL SUSTAINABILITY
General description		We do not act differently than in the past decade / today	National actions/policies are aligned with national commitments	National actions/policies are aligned with global sustainability targets
1. Macroeconomics	1.1) GDP per capita	SSP2	SSP2	SSP2
	1.2) Population	SSP2	SSP2	SSP2
	1.3) Inflation	Current US Dollar	Current US Dollar	Current US Dollar
	1.4) Inequalities	Current trend	Slight Decrease	Slight Decrease
2. Land	2.1) Constraints on agricultural expansion / deforestation	FreeExpansion	NoDefor2050	NoDef2030
	2.2) Afforestation, and forest plantations targets	Current Trends	BonnChallenge	BonnChallenge
	2.3) Urban and settlements area	Follow Pop scenario	Follow Pop scenario	Follow Pop scenario
	2.4) Protected areas	No additional areas	No additional areas	PAExpansion

Rest of North Africa, Central Asia and Middle East

3. Productivity and management	3.1) Crop productivity for the key crops	Low Growth	Middle Growth	High Growth
	3.2) Cropland under agroecological practices	Embedded natural	20% organic farming	Mixed (30% organic farming, 30% minimal tillage)
	3.3) Livestock productivity for the key livestock products	BAU Growth	Slight increase in growth but low	HighGrowth
	3.4) Pasture stocking rate	Optimal	Optimal	Optimal
	3.5) Forest management	No change	No change	No change
4. Trade	4.1) Share of consumption which is imported for key imported products (%)	I2 stable imports	I2 stable imports	I2 stable imports
	4.2) Evolution of exports for key exported products (1000 tons)	E2 export multiplied by 2	E2 export multiplied by 2	E2 export multiplied by 2
5. Food	5.1) Average dietary composition	Fat dietary	More sustainable - own-defined diet	EatLancet
	5.2) Share of food consumption which is	Current share	Current share	Reduced

Rest of North Africa, Central Asia and Middle East

	wasted at household level			
6. Biofuels	6.1) Targets on biofuel and/or other bioenergy use	NoChange	OECD_AgLINK	OECD_AgLINK
	6.2) Targets on other non-food use	-	-	-
7. Water	7.1) Irrigated crop area	Same irrigated area as in 2010	Increase by 10% up to 2050	Increase by 10% up to 2050
